

# Math Assistance Program (MAP)

Math Assistance Program or MAP is a service provided for students who are taking Pre-Calculus (Math 111). MAP is an opportunity to work with peers collaboratively to get questions answered, work practice problems, and reveal misconceptions about Pre-Cal. MAP sessions are offered each week during the semester by a CSL tutor and students can attend as many sessions as they would like and stay for as long as they want or can. MAP is a free service offered by the CSL in partnership with the Math Department.
