

Welcome to the MATH LAB!

The math lab is a drop-in peer tutoring center.

Please be aware that tutoring is conducted in a group setting.

If you need to see specific tutors because of their knowledge of certain courses (such as statistics), plan to come when those tutors are working.

See the following page for the math lab schedule.

Math Lab Procedures:

- **SIGN-IN** with the laptop at the front of the Math Lab.
 - Use your **student ID number** or last name
- **Please sit at the appropriate table** (see signs above tables). This will enable the tutors to serve you more efficiently
- **Come prepared** with questions **AND** your book, calculator and **notes!**
 - Come well ahead of time to prepare for a quiz or test. Not the hour before!
 - Feel free to use the math lab as a place to do your homework. We can then readily assist you when you get stuck on a problem!
- Tutors are **prohibited** from assisting students with any **graded assignments**, but *can* show you how to solve similar problems!
- If the Math Lab is busy, we appreciate your **patience** – a tutor will be with you as soon as they can!
 - **If very busy**, tutors may only be able to assist with one question before moving on to the next student
- Before leaving, **SIGN-OUT** with the laptop at the front of the Math Lab.
 - Use your **student ID number** or last name

If you have a concern or issue, please contact the Math Lab Director, Hope Florence, at FlorenceH@cofc.edu

Math Lab Tutoring

Monday, September 3 – December 3, 2018

All tutors can help with algebra, precalculus, business calculus, and calculus.

In addition, those designated can help with the following topics:
